

ABDUL SALAM

FRONT-END DEVOLEPMENT

KEY SKILLS

- Expert in building pixel-perfect, fully responsive user interfaces using Tailwind CSS and modern layout techniques.
- Skilled in developing scalable, reusable React components and managing state with modern libraries like Zustand or Context API.
- Experienced in converting UI/UX designs into functional front-end code and building design systems with consistent styling and behavior.
- Proficient in optimizing loading speed, reducing render bottlenecks, and implementing lazy loading and code splitting for improved UX.
- Adept at enhancing UX using Framer Motion for smooth transitions, AOS for scroll animations, and user-driven interface behavior.
- Skilled with Git, GitHub, and collaborative workflows using pull requests and code reviews.

CAREER OBJECTIVE

A driven front-end developer in training skilled in responsive design, speed optimization, and UI/UX seeks to enhance user experience and help companies reach their goals.
